Who we are

We are British designers, manufacturers, printers and finishers of a wide range of corporate and promotional merchandise specialising in sustainable materials. All stages of production are in house, backed by a multi award winning customer service team to help with your orders.

Sustainable British manufacturing

There is no standard definition of sustainable manufacturing. Sustainable British manufacturing for us is the safe production of our products through economically and environmentally sound processes, using ethically sourced materials with print and production techniques that minimise negative impacts while conserving natural resources and energy. Sustainable manufacturing also provides benefit to our employees and the wider community and ensures product safety for our customers.

Fancy something a little different?

As the actual manufacturers of everything you will see in this brochure, we can also make custom shapes and products to suit your requirements in any of these materials. Just let us have your ideas and we can convert them into your own unique products.

Our factory is a member of the below organisations and has earned the accreditations shown

Our Materials

Wood

For our wood products we only use timber suppliers with full sustainable supply chain certifications to internationally recognised environmental standards to ensure that all our wood types are responsibly sourced for your peace of mind. We also only work with oak, maple, walnut and cherry which NatureServe, a non-profit organisation made up of biodiversity scientists, have given a conservation status of G5 SECURE. Doing things this way makes our timber more expensive - but the cost is worth it. Responsible planting, managing and harvesting of timber by a proper supply chain for wooden products is good for the environment.

Moso® Bamboo

Not all bamboo is the same and just saying something is made from bamboo does not necessarily make it eco - far from it. All MOSO® material is made in production facilities that are ISO 9001 quality and ISO 14001 environmental third party certified and complies with the most stringent international standards. All adhesives used by MOSO® easily meet the very strict E1 class following the EN 717 standard with respect to formaldehyde emissions and all MOSO®'s solid bamboo materials are proven and certified to be carbon neutral or better over their full life cycle.

Greencast® Acrylic

Greencast® acrylic is produced from 100% recycled acrylic and is 100% recyclable at the end of its useful life. Unlike other techniques, the production of Greencast® acrylic uses a proprietary process which allows for the recovery of the original solvent (PMMA). This solvent is a durable, noble plastic which is reused to produce new acrylic sheets. The benefit of this process is that recycled clear transparent acrylic has the same quality as new virgin acrylic, but more importantly it can be recycled, countless times, without ever losing its all important properties. An additional positive is this process also reduces water consumption and carbon emissions at the point of manufacture while being VOC and HFC free.

Aluminium

All of the aluminium we use in our products is part recycled material and it is one of the most sustainable materials on the market today. Recycling aluminium saves about 90% of the energy it takes to make new aluminium as well as helping to reduce the demand for mining the bauxite ore needed to produce new aluminium. Our zero-waste manufacturing processes also allow for the collection of all unused 'offcuts' of aluminium for recycling as well.

Bamboo Phone Stands

Oak Phone Stands

Exclusive UK designed and manufactured flat pack gift sets made only from sustainably sourced and certified Moso® bamboo and Greencast® acrylic. Send a little eco festive cheer this year mixed with a practical gift that will enhance your brand. These gift sets are ideal for posting in time for Christmas!

1

MIX & MATCH

Choose between solid oak, warm caramel Moso® bamboo or Greencast® acrylic. Choose between curvy and geometric styles and then choose the pieces you would like in each set, from flat pack tablet stands, phone stands, coasters, keyrings, christmas trees, decorations, cards, ornaments and more!

2

PERSONALISE

Printed or engraved, personalising each product couldn't be easier! Simply decide on your logo and/or message and send it to us, along with a list of your recipients names. We will then artwork and proof these back to you for approval. Alternatively you can now visit addnames.co.uk and do it all online!

3

ECO PACK & POST

Each set is designed to fit snugly into our sturdy, plastic free flatpack postal packaging. Our packaging is natural and neutral and can be sent to a central hub or direct to any number of individual recipients addresses under plain cover.

Solid Oak Xmas Ornaments and Little Thankyou Gifts

Looking for something a little more unique and enduring? We make personalised corporate gifts in attractive and sustainable solid wood (oak, maple, walnut or cherry). New this year - our Christmas themed oak ornaments, which are sure to delight and stand out from all the synthetic materials which inundate the market at this time. This year choose a gift that is sure to be treasured for many years to come rather than end up in landfill by January!
